

Technical Data Sheet

white polypropylene label products offer excellent durability and moisture resistance. these label products utilize adhesive which is a high performance tackified acrylic formulated for acid resistance and adhesion to polyolefins.

Construction

Facestock	75 micron white polypropylene
Adhesive	30 micron acrylic
Liner	glassine paper

Adhesion

Surface	LoopTack (N/in)	180° peel (N/in)
Polypropylene	38	39

Ribbon AXR 7+、T121、R300

Minimum Application Temperature 5 ° C

Service Temperature Range: -30° C — 105° C

Storage Stability Two years stored at 70°F (21°C) and 50% RH
