

**Technical Data Sheet**

White Polypropylene Label is a glossy white opaque material that offers excellent durability and moisture resistance. The Adhesive is a freezer grade acrylic that offers high initial tack, good clarity, and adhesion when applied at temperatures as low as -80°C. The Adhesive has excellent processing characteristics and offers exceptional adhesion to a wide variety of substrates with moderate resistance to water and humidity.

**Construction**

<b>Facestock</b>	58 micron	Polypropylene
<b>Adhesive</b>	18 micron	acrylic adhesive
<b>Liner</b>	glassine paper	

**Application**

- Durable goods, product ID, frozen foods.
- Blood Bag & Laboratory Labels

**Adhesion**

Surface	180° peel (N/in)
Glass	120
Polypropylene	25
HDPE	22
Polyester	112

**Ribbon**

T121

**Minimum Application Temperature**

10 ° C

**Service Temperature Range:**

-80° C — 80° C

**Storage Stability**

One years stored at 70°F (21°C) and 50% RH
